

# PNT 200<sup>®</sup>

## Stress Management the Natural Way

PNT 200 is a patented, natural supplement that is clinically proven to reduce and regulate stress related symptoms.

## FEATURES

**PNT 200 is a healthy solution to the effects of stress in the form of a naturally sourced active peptide from milk. Researchers have found this unique ingredient to contain natural calming properties.**

### **FAST ACTING:**

Stress is a normal part of everyday life yet it should not control our lives. PNT 200 works quickly to provide relief from stress related symptoms. With an average 6-8 hour effective rate, it is the natural supplement you need.

### **PNT 200 IS NOT A DRUG, AND HAS NO UNDESIRABLE EXTRA INGREDIENTS:**

It's easy to understand why PNT 200 has such a following of users. Contains no preservatives, no starch, no coloring agents, no soy wheat, no corn, no gluten and no sweeteners.

## BENEFITS

**Whereas stress can be destructive and lead to a number of adverse health effects, PNT 200 can help to naturally and safely manage your symptoms.**

### **NATURAL RELIEF:**

The bioactive component of milk found in PNT 200 which decreases stress levels has been clinically demonstrated to have beneficial physiological properties, all in this natural food grade supplement.

### **SAFE:**

PNT 200 is a natural supplement that does not carry the numerous side effects of many pharmacological drugs. Whether you are suffering from physical or mental stress, PNT 200 is the safe choice.

### **IMPROVEMENT IN STRESS SYMPTOMS:**

Research has shown that PNT 200 results in an improvement in a wide variety of stress related parameters, such as: sleep problems, mood swings, tenseness, weight management, anxiety, and others.

### IMMUNE RELATED BENEFITS

Sustained or significant stress is well understood to have detrimental effects on the human immune system. Viral illnesses – and worse – can result when the immune system has been compromised due to stress and its symptoms. PNT 200 is a natural product that helps you to feel calm, supporting a strong immune system.
