NON-GAAP MEASURES: This Press Release contains non-GAAP measures which do not have a standardized meaning under International Financial Reporting Standards ("IFRS"). We use earnings before interest, taxes, depreciation and amortization ("EBITDA"), as this measure allows management to evaluate the operational performance of the Company. EBITDA does not have any standardized meaning prescribed by IFRS and is therefore unlikely to be comparable to similar measures presented by other issuers. EBITDA should not be considered an alternative to profit (loss) in measuring the Company's performance, nor should it be used as an exclusive measure of cash flow. This measure does not represent the funds available for the repayment of debt, the payment of dividends, reinvestment or other discretionary uses, and should not be considered in isolation or as substitutes for other measures of performance calculated according to IFRS. The Company uses these non-GAAP measures because they provide additional information on the performance of its commercial operations. Such tools are frequently used in the business world to analyze and compare the performance of businesses; however, the Company's definition of these metrics may differ from those of other businesses.

Adjusted EBITDA and Sponsoring

- *Adjusted EBITDA corresponds to EBITDA as defined above less elements that management considers to be outside the scope of its normal activities and therefore not reflective of how management views performance measurement. Management believes that this metric is necessary in order to isolate commercial operations from items which it believes merit separate examination when assessing performance. Consistent improvement in adjusted EBITDA is one of management's primary objectives.*
- *Sponsoring means the activity in which independent Consultants sponsor new Consultants and Customers; the sponsored Consultants themselves may sponsor new Consultants or Customers and so forth. This is referred to as a Consultant's "organization" or "downline". The Consultants are compensated for sales generated by their organization, based on their qualification and rank. Successful Independent Consultants assume the responsibility to train, support and communicate with their downline.*
